

A LITTLE ABOUT CHURCH LAND PROGRAMME

The Church Land Programme (CLP) is an independent non-profit organisation that works through a process of animation with groups of poor people to create unique responses to their unique situations.

CLP's mission statement:

The Church Land Programme works to affirm, learn from and journey with those who are systematically excluded and impoverished in their struggles related to land and justice. CLP supports people's struggles for freedom and to regain their collective power. CLP works with people through a process of animation.

CLP works with and from its values: respect for others, reflection and learning, being present with and listening to people, commitment to social justice and democratic practice and professionalism.

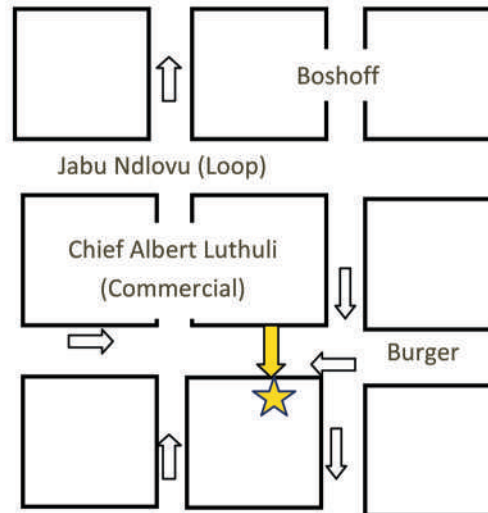

How Emzabalazweni connects to CLP

Emzabalazweni is a space used by the communities that CLP connects with. It is used as a meeting space and also as a space to rest for those who are in the struggle when they come to visit CLP Offices. However the space is also available to anyone who might require space away from their busy life who may need it to gather their thoughts and have some peace of mind. A minimal fee is charged to help support the work of CLP and some of its projects.
